

BPICO-1820 COUNTERTOP CONVEYOR OVEN

BUILT BY CRAFTSMEN. TESTED BY TIME.

SPEEDY **SIMPLE** **FLEXIBLE**

Speedy baking through our powerful fan-jet system.

Simple design enables easy operating and easy cleaning with complete access to major components, including removable conveyor system.

Flexible variable speed conveyor and blower motors offer almost limitless control options of time and heat for a large variety of baking needs.

Countertop Conveyor Oven

Ventless cooking provides a cost effective solution for locations in which it is too difficult or expensive for a traditional ventilation system.

Small footprint fits well on most countertops yet has large capacity

Revolutionary concept in baking uses a powerful fan-jet system to force hot air toward food on a reversible conveyor, accelerating the cooking process, without compromising quality.

Faster food delivery means higher productivity and higher customer satisfaction.

Design configurations include three conveyor length choices, stackable units up to three high, landing shelves that can hold 18" pizza on both sides, multiple power options available.

Outstanding menu flexibility for fast heating, cooking, baking and even finishing for crispness.

A new product designed by Bakers Pride, the oven experts with a long tradition of innovation in ovens-Deck, Countertop, Speed, Convection and now, Conveyor.

Compliance with UL 710B using EPA Method 202. Ventless certification is for all foods items except for foods classified as "fatty raw proteins." Such foods include bone-in, skin-on chicken, raw hamburger meat, raw bacon, raw sausage, steaks, etc. If cooking these types of foods, consult local HVAC codes and authorities to ensure compliance with ventilation requirements.

Dimensions
