LOW TEMPERATURE SMOKER OVEN

• **HALO HEAT** . . . a controlled, uniform heat source that maintains close temperature tolerances throughout the cooking and holding function.

Offers uniform and consistent cooking on a daily basis, low shrinkage of bulk or portion-cut protein items, higher food moisture content, and significantly longer holding life.

- Smokes with real wood chips — no pressure cooking, no artificial smoke flavor.
- Smoke timer offers a choice of mild, medium, or heavy smoke flavor.
- Cooks, smokes, and holds meats, poultry, and fish.
- Cold smokes fish and cheese.
- Induces natural enzyme action in meat for tenderizing.
- Less energy usage than conventional ovens.
- Reduces labor and evens-out work loads.
- Non-magnetic stainless steel interior, racks, and shelves resist corrosion.
- Simple control senses temperature drops faster, providing quick heat recovery time.

Two (2) individually controlled smoker compartments are enclosed in one 20 gauge stainless steel exterior. Doors include a positive-catch door latch. Each compartment interior includes two (2) completely removable, non-magnetic stainless steel side racks with eleven (11) pan positions spaced on 1-3/8" (35mm) centers, two (2) stainless steel wire shelves, one (1) stainless steel Rib Rack, a removable stainless steel drip pan with drain and a wood chip container. Oven is furnished with an exterior, front mounted stainless steel drip tray and one (1) sample bag each of cherry, hickory, apple & maple wood chips. Oven includes one (1) set of 5" (127mm) casters — 2 rigid, and 2 swivel with brake.

Each compartment has one (1) Simple control with an ON/OFF power switch; cook temperature knob, 200° to 325°F (94° to 160°C); hold temperature knob, 60° to 205°F (16° to 96°C); digital display, UP/DOWN arrows to set cook and hold time; and a sixty minute smoking timer. Control features indicator lights for the cook, hold, and smoke functions, and when the oven is calling for heat. Oven is equipped with a voltage conversion switch, located on the back of the oven, for voltage selection (208 or 240 V.A.C.) at time of installation.

MODEL 1767-SK: Double compartment low temperature smoker oven with Simple control.

FACTORY INSTALLED OPTIONS

- Specify Door:
 - Solid Door, standard
 - Window Door, optional
- Specify Door Swing:
 - Right-hand swing, standard
 - Left-hand swing, optional
- Specify Voltage:
 - 208-240
 - 230
- Specify exterior panel color:
 - Stainless steel, standard
 - Burgundy, optional
 - Custom color, optional
- Cooking thermostat limit set at 250°F for restricted areas of the U.S.A.
 - Specify on order as required.

ADDITIONAL FEATURES

Rib Rack Shelf • Item SH-2743

Special non-magnetic stainless steel wire shelf designed to hold ribs or fish in an upright position for more even smoking. Each shelf will hold thirteen full ribs. One (1) Rib Rack Shelf is furnished with each smoker. Additional racks are available as an option. Each compartment capacity: Two (2) Rib Rack Shelves.

Lifetime Warranty

On all Cook & Hold heating elements (EXCLUDES LABOR).
