

# DISHMACHINE RENTAL & **CHEMICALS** PROGRAM

# Overview

## A BETTER SOLUTION

As the largest distributor of foodservice equipment and supplies in the industry, TriMark is now pleased to offer an alternative solution for your dishwashing, laundry, and chemical needs. In partnership with Sunburst Chemicals and CMA Dishmachines, along with the use of our proprietary customer order placement portal, TriMark has created a seamless process for our customers to streamline the management of their foodservice operations from back of the house to front.

# Equipment

## LOWER OPERATING COSTS

Whether you are a seasoned foodservice professional or new to the industry, there are countless daily considerations involved in opening, maintaining or growing any successful operation. Between menu development and staffing issues, your time is in high demand. Why spend it worrying about the initial expense and costly repairs associated with owning equipment?

Every rental through TriMark comes with a brand new CMA Dishmachine, which not only reduces downtime and excessive maintenance headaches, but also reduces operating costs by 20% to 30% on average.

# Chemicals

## EXTENSIVE HIGH YIELDS PRODUCTS

TriMark's partnership with Sunburst Chemicals provides our customers access to a wide array of chemical products for every application that deliver high yields and savings without compromising performance. Through our online ordering portal, you will be able to locate the right products for your operation quickly and efficiently, as well as track existing orders or review previous orders with ease. Consistent, effective orders allow our customers more time to focus on their bottom line.

## GREASE TRAP & DRAIN LINE MAINTENANCE SYSTEM

### AUTOMATIC DISPENSING

Electronically controlled dosing schedule prevents formation of solid organic material in grease traps, drain lines or septic systems.

### MOISTURE AND WATER RESISTANT

Water tight seal protects the electronics and the stored battery power.

### BATTERY POWERED

New electronic technology provides up to three years in battery life. Includes a Low Battery Warning Light and Push to Dispense touch pad.

### PROGRAMMING

Multiple event programming capability and events option adapts to all conditions and drain systems.

### MAXIMUM DISPERSION

A minimum of 172 ounces of fluid delivered per 2-ounce dose. This increases dispersion, contact and effectiveness in all applications.

### REMOTE GREASE TRAP TREATMENT

Due to water flush capability, remote installation treats drain lines, as well as traps.

# SOLID GREEN 22 BIO-ACTIVE

DIGESTANT / DEODORANT

Solid Green 22 Bio-Active is a solid bacterial product used to break down and digest organic materials that can plug drains and grease traps.

Regular treatment controls odor, prevents troublesome drain blockage and reduces expensive grease-trap pumping costs.

Great for use in septic tanks and drain fields, it can also be used in mopping applications in kitchens, restrooms and dock areas to breakdown organic material and for odor control.

Made with all rapidly biodegradable materials; Contains no phosphate, volatile organic compounds, NPEs, or pH contributors.

Bacterial sources are not harmful to humans or animals. Certified Salmonella-free.

Keeps drain lines free-flowing and grease traps functioning properly, reducing BODs, CODs and suspended solids.

Eliminates odors from drains and grease traps.

# More than just Products

We offer complete program suites for your entire establishment.

## FOOD SERVICE — Customized Solutions

### Descaler

**LIME OUT**
