

A Message to Our Customers About TriMark's Settlement Agreement with the Department of Justice

Mansfield, MA – February 25, 2022 – TriMark has taken the allegations involving its subsidiary Gill Marketing's past small business practices very seriously, as evidenced by our timely and meaningful cooperation with the U.S. Attorney's Offices highlighted in the agreement. Gill Marketing has taken responsive actions and has implemented enhanced control procedures. Gill Marketing represents approximately 2-3% of TriMark's overall business. The amount to be paid to resolve this matter is consistent with the reserve we took in 2021. We appreciate the constructive engagement that we have had with U.S. Attorney's Offices throughout this process.

With this settlement agreement in place, we are well-positioned to move forward in pursuit of our goals and priorities for the year ahead and to support our customers' success and sustainability. We are investing for the future, and we have come out of the gate very strong in 2022, with tremendous strength and backlog and we anticipate a very successful year.

About TriMark USA

TriMark USA is one of the country's largest providers of design services, equipment, and supplies to the foodservice industry. We proudly serve our customers by providing design services, commercial equipment, and foodservice supplies across a wide range of industries and business sectors.

Headquartered in Massachusetts, we have locations across the country which offer foodservice operators an unparalleled level of service by combining our unique design capabilities and our expert market knowledge with the purchasing strength, delivery, installation and after sales service capabilities of a national company. Our employees are focused on creating customized solutions for our customers to ensure they achieve their culinary goals. For more information, please visit: www.trimarkusa.com.
