WineStation Premier PLUS

Staff & Self-Service Application

The WineStation Premier PLUS creates the most decadent and engaging wine tasting experience possible. Utilizing the AccuServe Smartcard technology guests can self explore a wide variety of wines in taste, half, or full glass options while providing the operator with detailed consumer insights, purchase habits and detailed product reports. The WineStation is the only system in the world that also affords sophisticated room key integration technology and multi-site AccuServe Smartcard accessibility.

Clean-Pour Dispensing Head Technology

The Clean-Pour Dispensing Head technology was designed to improve dated industry standards and provide the most effective, accurate, contamination free wine delivery system in the world.

AccuServe Smartcard Access Control

Our patented software affords the greatest level of product security, access and accuracy to every pour.

AccuServe Staff Assigned Smartcards

AccuServe Smartcards are assigned to each employee affording precision driven product monitoring and access.

AccuServe Customer Assigned Smartcards

AccuServe Smartcards can be assigned in seven varied formats allowing you the elasticity to meet your business needs, including Customer cards that will track and manage personal consumption and purchase history.

Employee Sales Monitoring & Reporting

The WineStation is equipped with the tools that allow you to operate at the highest level of success by reporting detailed product sales and volume.

Customer Preference Tracking & Reporting

Knowing your guest preferences can enhance marketing efforts and personalize the overall experience and the ability to assign AccuServe Smartcards for each customer will provide you this valuable detail – all at the touch of a button.

Wine Sales Reports by Brand & Varietal

The WineStation is equipped with the tools that allow you to operate at the highest level of success by reporting details by brand or varietal.

Wine Database Management

The WineStation stores your selections for easy recording and management. A perfect complement to any POS system.

Remote System Monitoring

When you need data, you need it from wherever you are. The WineStation's remote system monitoring allows you to check in on your operations from anywhere in the world.

Programmable Portion Control

Each operator's definition of a taste, half and full glass pour can vary. The WineStation allows a wide range of options from .25 to 7.0 oz.

Fully Customizable LCD Display

The WineStation allows you to share so much more than varietal, region and date. Utilizing the customizable LCD screens you can share a wide range of tasting notes or menu pairings.

Bar Code Scanner

Successful operations are fast and efficient. The WineStation bar code scanner provides quick and easy additions to you wine database.
