- Preferred Environmental Choice

SoapWorks™ Manual Liquid Soap System

An attractive, manually operated counter-mounted dispensing system that delivers the perfect amount of soap – every time! Washroom visitors will appreciate our luxurious soaps and reliable, hygienic dispensing.

Rich Hand Wash Experience

Premium soap formulas that produce thick, rich lather delivered touch-free for a luxurious hand washing experience. OneShot offers a wide choice of formulations, hypoallergenic, for sensitive skin, and antimicrobial soaps. All soaps contain moisturizers such as Aloe and Vitamin E to soothe the skin.

Improved Hygiene

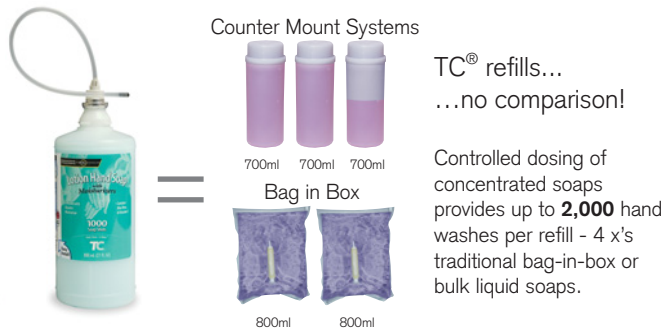

Disposable refills with TC's Hygienic Seal™ keeps soap fresh and clean providing a more sanitary system. A recent study revealed that 25% of reservoir or bulk soap systems were contaminated with potentially harmful bacteria⁽¹⁾. Convenient, reliable delivery of fresh clean soap ensures customer-delight.

Low Cost-in-Use

More hand washes with fewer refills reduce labor and costs. New pump and delivery tube with every refill eliminates mess, clogs and drips – guaranteed to work every time. No downtime, costly repairs and cleaning, or replacement parts. Simple 2 minute installation and “one-handed” refill loading further reduces costs.

Preferred Environmental Choice

OneShot Pure & Natural soap is Green Seal Certified. Controlled dispensing reduces soap consumption so there are fewer chemicals in the waste stream and water usage is reduced. More hand washes per refill means up to 80% less packaging waste.

Counter Mount Systems

TC® refills...
...no comparison!

Controlled dosing of concentrated soaps provides up to **2,000** hand washes per refill - 4 x's traditional bag-in-box or bulk liquid soaps.
